

PRESBYOPIA SYMPOSIUM
PRESBYMANIA
PROGRAM

Date:
16-18 May, 2019 r.

Venue:
Hotel Angelo
Sokolska St. 24
40-086 Katowice
Poland

FRIDAY

17 May 2019

Session I

14.30 – 16.06

PART I: ALL ABOUT PRESBYOPIA – IOL part 1

14.30 – 14.42 (10 min presentation + 2 min discussion)

I/1 Patient selection for presb refr surgery

Claes Feinbaum

14.42 – 14.54 (10 min presentation + 2 min discussion)

I/2 Managing patient dissatisfaction in trifocal implantation

Johan Kruger

14.54 – 15.06 (10 min presentation + 2 min discussion)

I/3 The quality of life after implantation of PREMIUM lenses in presbyopic patients

Ewa Mrukwa – Kominek

15.06 – 15.18 (10 min presentation + 2 min discussion)

I/4 Immediate sequential monofocal/trifocals implants for presbyopia (one eye mono the other tri)

Cyres Mehta

15.18 – 15.30 (10 min presentation + 2 min discussion)

I/5 Role of accommodation

Charles Ghenassia

15.30 – 15.42 (10 min presentation + 2 min discussion)

I/6 Explantation of different multifocal IOLs

Magda Rau

15.42 – 15.54 (10 min presentation + 2 min discussion)

I/7 Basis and future prospects

Charles Ghenassia

15.54 – 16.06 (10 min presentation + 2 min discussion)

I/8 Mix-match of multifocal trifocal diffractive IOLs (Fine Vision) with asymmetric MFIOL (Lentis M plusX) to improve the satisfaction of patients

Magda Rau

16.06 – 16.15 Break

Session I
16.15 – 17.39
PART II: IOL part 2

16.15 – 16.27 (10 min presentation + 2 min discussion)

I/9 Minimonovision versus trifocal implantation

Johan Kruger

16.27 – 16.39 (10 min presentation + 2 min discussion)

I/10 Improvement of visual and functional outcomes after Implantation of Lentis Mplus toric X versus Lentis Mplus X

Magda Rau

16.39 – 16.51 (10 min presentation + 2 min discussion)

I/11 Emetropia after Premium IOLs

Vicente Rodriguez

16.51 – 17.03 (10 min presentation + 2 min discussion)

I/12 Patient premium for Multifocal IOLs

Patricia Rodriguez

17.03 – 17.15 (10 min presentation + 2 min discussion)

I/13 Trinova - new sinusoidal trifocal lens

Jerome Bovet

17.15 – 17.27 (10 min presentation + 2 min discussion)

I/14 EDOF Lara bilateral implants for presbyopia

Cyres Mehta

17.27 - 17.39 (10 min presentation + 2 min discussion)

I/15 Sinusoidal intraocular lens in cataract surgery and its effect on the quality of patients' vision

Ewa Mrukwa

SATURDAY
18 May 2019

Session II
9.30 – 10.42
PART I: LASER

9.30 - 9.42 (10 min presentation + 2 min discussion)

II/1 PRESBYLASIK

Klaus Ditzen

9.42 – 9.54 (10 min presentation + 2 min discussion)

II/2 Is There a future for cornea-based surgery in presbyopia?

Antonio Marinho

9.54 – 10.06 (10 min presentation + 2 min discussion)

II/3 Presbylasik with Presbycor

Charles Ghenassia

10.06 – 10.18 (10 min presentation + 2 min discussion)

II/4 Limits in hyperopic corneal refractive surgery

Klaus Ditzen

10.18 – 10.30 (10 min presentation + 2 min discussion)

II/5 Complications in corneal refractive surgery

Klaus Ditzen

10.30 – 10.42 (10 min presentation + 2 min discussion)

II/6 Presbimax results and selection of patients

Marco Fantozzi

10.42 – 11.00 Break

Session II
11.00 – 12.36

PART II: NEW TECHNOLOGY AND INLAY

11.00 – 11.12 (10 min presentation + 2 min discussion)

II/7 Collagen presbyopic inlay - clinical results

Pavel Stodulka

11.12 – 11.24 (10 min presentation + 2 min discussion)

II/8 Advances in Pharmacological Treatment for Presbyopia Benozzi's Method

Giovanna Benozzi

11.24 – 11.36 (10 min presentation + 2 min discussion)

II/9 Updating in Pharmacological Treatment of Presbyopia

11.36 – 11.48 (10 min presentation + 2 min discussion)

II/10 Pharma correction of presbyopia- an update

Claes Feinbaum

11.48 – 12.00 (10 min presentation + 2 min discussion)

II/11 Ocular Surface Evaluation in patients treated with Pharmacological Treatment for Presbyopia

Giovanna Benozzi

12.00 – 12.12 (10 min presentation + 2 min discussion)

II/12 Signal transduction by muscarinic stimulation in the pig ciliary muscle

Giovanna Benozzi

12.12 – 12.24 (10 min presentation + 2 min discussion)

II/13 Treating presbyopia with an implantable contact lens

Johan Kruger

12.24 – 12.36 (10 min presentation + 2 min discussion)

II/14 Corneal inlay: a new method of insertion

Marco Fantozzi
